

Learning Solutions

SQL 2005 BOOT CAMP

Overview

The Technology Specialist certifications enable professionals to target specific technologies and distinguish themselves by demonstrating in-depth knowledge of and expertise in the technologies with which they work.

Microsoft Certified Technology Specialists in SQL Server 2005 (MCTS: SQL Server 2005) implement and maintain databases using specific instructions and specifications. They have thorough knowledge of the product, understand how to use the tools and Transact-SQL language, and know how to navigate the user interface. Technology Specialists are typically pursuing careers as a database administrator, database developer, or business intelligence developer. They may also be individuals such as developers and systems administrators who do not work with SQL Server on a daily basis but wish to show their breadth of technology experience.

Courses Offered in this Boot Camp

2780: Maintaining a Microsoft SQL Server 2005 Database - Boot Camp (2.5 days)

2779: Implementing a Microsoft SQL Server 2005 Database - Boot Camp (2.5 days)

Target Audience

This course is intended for IT Professionals wanting to become skilled on SQL Server 2005 product features and technologies for implementing and maintaining a database. Before attending this course, students must have basic knowledge of the Microsoft Windows operating system and its core functionality, working knowledge of Transact-SQL, working knowledge of relational databases and some experience with database design.

What's Included

- **Instructor-led Training** -- Learn from an expert instructor. Our expert instructors are themselves certified and have years of experience in the real world as well as in teaching.
- **High Quality Courseware** We utilize Microsoft Official Curriculum (MOC). In addition each course offers supplemental information provided by the instructors to students to help further engage you in learning products from a real world perspective.
- **All inclusive** -- The boot camps offer an all inclusive package that help you learn and understand the concepts, prepare for and take the exams. You focus on learning, while we take care of breakfast, lunch, vouchers and testing. If you are traveling in to either Tulsa or Oklahoma City to take the boot camp we will work with you to find and obtain the best travel arrangements possible.

Learning Solutions

- **Up to 2 Test Vouchers** -- The boot camp includes up to two test vouchers for use during the boot camp, at no additional cost. If the boot camp covers a single exam only one voucher will be provided.
- **Certification Success Policy (CSP)** -- We are confident of the quality of our boot camp. Please see our CSP section below for details.
- **Refreshments** -- Snacks, freshly-brewed coffee, tea and water are available throughout the day at the training site. In addition we have a café located on the same floor as the training center which sells everything from cold soft drinks, breakfast, hot lunches, etc
- **Five days of complete training** -- Includes 45 hours of lectures, hands on labs, topic reviews, test preparation and testing.
- **Testing at Training Site** -- N.E.T. is an authorized Prometric Testing Center. You will be able to take your exams at the end of the boot camp without any additional travel or time required.

Exams

- 70-431 : TS: Microsoft SQL Server 2005 - Implementation and Maintenance

Certification Success Policy (CSP)

If you are not able to attain all certifications during the boot camp, you can attend the boot camp again within a period of one year, if it is still being offered and has availability. To attend, simply retain your course materials. N.E.T. will provide you with one additional exam voucher upon the successful completion of your retake of the full boot camp. If the courseware has changed, you must purchase the latest material.
